"Mike's message on leadership was nothing short of transformative. He spoke candidly about what it truly means to lead, while also recognizing that not everyone is destined for a leadership role—and that's perfectly okay. As someone who thrives in a supportive role, I found his insights deeply affirming and empowering. Mike emphasized the critical value of strong teams and the essential role they play in any leader's success, a truth that resonated powerfully with our entire group. His ability to connect with every individual in the room, regardless of their position, made his talk both inspiring and profoundly impactful. "We were so honored to have Mike speak at our Sales Kickoff. Indeed, there was so much demand for the event that we made it available to the entire company. Ultimately, the concepts Mike knows deeply as a military leader who saw some of the toughest combat situations are so important for, and yet underutilized in the civilian world. Our entire company walked away inspired to strive for excellence."

"Mike led a leadership offsite at The Gettysburg. The Gettysburg Staff Walk left an indelible impression. It highlighted the depth of sacrifice at those hallowed grounds; showed what Union and freedom cost; and reminded us that internecine conflict can be as vicious and destructive as war between nations. But more to the point, the Walk served as a reminder of Faulkner's adage, "The past is never dead. It's not even past." As we walked from station to station and made decisions — hypothetical ones — with the same information available to battlefield leaders, we realized that those leaders in the summer of 1863 were fallible, sometimes heroic, often wrong. In short, just like us. The immediacy of the place reached across the long chasm of history; and the presence of Mike and his instructors — guiding, Illuminating, empathizing with a hard-earned authenticity — drove the lessons home in a way that a self-guided walk never could. A required experience for anyone who wants to better understand our history, and the connection of that history to contemporary leadership."

- Michael Peirera, Chief Executive Officer of HPC Specialty Pharmacy

"Motivating, informative, and excellent. I hope to look back at this speech years from now and still be constantly applying the principles.

"Mike came to our department and gave a training presentation on resiliency and leadership. Our department has tragically lost four officers in the past 18 months, and Mike's message on resiliency hit home. It was the perfect message to a group still struggling with the loss of teammates. His presentation on leadership was the best I have ever seen. His ability to communicate to all levels of a team is simply outstanding. Everyone walked out of the training inspired and with new tools for resiliency and leadership at all levels. Awesome training. We have already had many requests to bring him back to our department."
